**INDEPENDENT AUDITORS' REVIEW REPORT
CONSOLIDATED FINANCIAL STATEMENTS AND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 31 MARCH 2026**

*(Convenience Translation of Financial Statements and Related
Explanations and Notes Originally Issued in Turkish)*

**(CONVENIENCE TRANSLATION OF
INDEPENDENT AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH)**

**AUDITOR'S REPORT ON REVIEW OF
CONSOLIDATED INTERIM FINANCIAL INFORMATION**

To the General Assembly of D Yatırım Bankası A.Ş.

Introduction

We have reviewed the accompanying consolidated statement of financial position of D Yatırım Bankası A.Ş. ("the Bank") and its consolidated financial subsidiaries (together "the Group") as at 31 March 2026 and the related consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows, for the three month period then ended and a summary of significant accounting policies and other explanatory notes. The Bank management is responsible for the preparation and fair presentation of the accompanying interim financial information in accordance with "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Regulations" including the regulation on "The Procedures and Principles Regarding Banks' Accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" principles for the matters not legislated by the aforementioned regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Independent Auditing Standard on Review Engagements (ISRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information do not present fairly, in all material respects, the consolidated financial position of D Yatırım Bankası A.Ş. and its financial subsidiaries as at 31 March 2026, and its consolidated financial performance and its consolidated cash flows for the three-month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the interim activity report included in section seven of the accompanying unconsolidated interim financial information is not consistent, in all material respects, with the reviewed unconsolidated interim financial information and explanatory notes.

Additional paragraph for convenience translation to English

BRSA Accounting and Reporting Regulations explained in detail in Section 3 differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board with respect to the application of inflation accounting. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

SECTION THREE ACCOUNTING POLICIES

I. Basis of presentation

1. Preparation of the consolidated financial statements and the accompanying notes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks’ Accounting Applications and Preserving the Documents

The Parent Bank prepares its financial statements in accordance with the Banking Regulation Law No: 5411 and Supervision Authority (“BRSA”) Accounting and Reporting Regulation which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Financial Reporting Standards (“TFRS”) published by the Public Oversight Accounting and Auditing Standards Authority (“POA”) for the matters not regulated by the aforementioned legislations.

Consolidated financial statements have been prepared on the basis of historical cost, except for financial assets and liabilities that are shown at their fair values.

The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on the Financial Statements to be announced to public by Banks as well as Explanations and Footnotes Thereof” and “Communiqué on Disclosures About Risk Management to Be Announced to Public by Banks” and amendments to this Communiqué.

All amounts in the financial statements and notes are expressed in thousands of Turkish Lira unless otherwise stated (“TL”).

2. The valuation principles used in the preparation of the financial statements

The accounting policies and valuation principles applied in the preparation of consolidated financial statements, are determined and applied in accordance with regulations, communiques, explanations and circulars on accounting and financial reporting principles published by the BRSA, and in case where there is no special regulation made by the BRSA, in accordance with principles in the context of TAS and TFRS.

According to TAS 29 “Financial Reporting in Hyperinflationary Economies” Standard, enterprises whose functional currency is the currency of an economy with hyperinflation report their financial statements according to the purchasing power of the money at the end of the reporting period. In the announcement made by the Public Oversight Accounting and Auditing Standards Authority (KGK) on 23 November 2023, it was decided that enterprises applying TFRS would apply the “TAS - 29 Financial Reporting in Hyperinflationary Economies” standard in their financial statements as of the 31 December 2023 reporting period, and in addition, institutions or organizations authorized to regulate and audit in their own fields were given freedom to determine different transition dates for the application of the provisions of TAS 29. Based on this announcement, BRSA;

- in accordance with its decision dated 12 December 2023 and numbered 10744, has decided that the financial statements of banks and financial leasing, factoring, financing, savings financing and asset management companies dated 31 December 2023 will not be subject to the inflation adjustment required within the scope of TAS 29.
- in accordance with the BRSA decision dated 11 January 2024 and numbered 10825, banks, financial leasing, factoring, financing, savings financing and asset management companies are required to apply inflation accounting as of 1 January 2025.
- in accordance with decision dated 5 December 2024 and numbered 11021, it was decided that banks and financial leasing, factoring, financing, savings financing and asset management companies will not apply inflation accounting in 2025.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

I. Basis of presentation (cont'd)

3. The valuation principles used in the preparation of the financial statements (cont'd)

- in accordance with decision dated 18 December 2025 and numbered 11340, it was announced that the Board Decision dated 11 January 2024 and numbered 10825 was repealed and that banks and financial leasing, factoring, financing, savings financing and asset management companies will not apply inflation accounting.

Accordingly, "TAS 29 Financial Reporting Standard in High Inflation Economies" is not applied in the financial statements of the Group as of 31 March 2026.

4. Accounting policies used in the preparation of consolidated financial statements

The accounting rules and the valuation principles used in the preparation of the financial statements were implemented as stated in the Reporting Standards. These accounting policies and valuation principles are explained in the below notes through II to XXV.

II. Explanation on usage strategy of financial instruments and foreign currency transactions

1. Explanations on usage strategy of financial instruments

The Parent Bank's core business includes all banking services and investment banking activities other than cash management, foreign trade finance, structured finance, treasury products and services, and deposit accepting offered to Corporate and Commercial Banking customers.

The Bank's basic usage strategy regarding financial instruments is to maximize the level of return obtained from financial instruments by remaining within the optimal risk levels determined according to the Bank's scale. The Bank's main funding sources, other than its equity capital, consist of funds borrowed, funds obtained from issued securities, funds from payables to money markets. The Parent Bank is focused on managing the costs of diversified funding sources at the lowest possible level within the 2026 operating period. The Parent Bank invests its funding resources in high-yield and low-risk assets. While the maturity compatibility of resources and assets is taken into consideration, an asset-liability management is based on keeping other risk factors such as interest, liquidity and exchange rate risk within the bank's internal limits.

2. Explanations on foreign currency transactions

The foreign exchange gains and losses on foreign currency transactions are accounted for in the period of the transaction. Foreign exchange assets and liabilities are translated to Turkish Lira using foreign exchange bid rates of the Central Bank of the Republic of Türkiye (CBRT) as of the balance sheet date, and the resulting gains and losses are recorded in foreign exchange gains or losses.

Exchange rate, interest and price movements in the markets are monitored instantly, legal limits are effectively monitored when taking positions and non-compliance with legal limits is prevented.

III. Information on consolidated subsidiaries

The consolidated financial statements have been prepared in accordance with the "Communiqué on Preparation of Consolidated Financial Statements of Banks" published in the Official Gazette No. 26340 dated 8 November 2006 and "Turkish Financial Reporting Standard on Consolidated Financial Statements" ("TFRS 10"). The subsidiary, which is a financial institution, is consolidated using the full consolidation method. The financial statements of the related subsidiary are included in the consolidated financial statements from the date on which control is transferred to the Bank. According to the full consolidation method, 100% of the assets, liabilities, income, expenses and off-balance sheet liabilities of the subsidiary are combined with the assets, liabilities, income, expenses and off-balance sheet liabilities of the Parent Bank.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

ACCOUNTING POLICIES (cont’d)

III. Information on consolidated subsidiaries (cont’d)

The carrying amount of the Parent Bank's investment in a subsidiary is eliminated against the Parent Bank's share in the equity of the subsidiary. All transactions between the subsidiary included in the scope of consolidation and the Parent Bank and the accounts related to these transactions are mutually eliminated.

All the financial statements used in the consolidation are financial statements prepared as of 31 March 2026, and necessary harmonization adjustments have been made on the financial statements of the subsidiaries in order to ensure that the same accounting policies are applied for similar transactions and events under similar conditions.

The consolidated financial statements are prepared in accordance with TFRS 10 “Turkish Financial Reporting Standard on Consolidated Financial Statements”.

IV. Explanations on forward and option contracts and derivative instruments

The Group’s derivative transactions consist of cross currency swaps and forward foreign exchange purchase and sale agreements. The Parent Bank does not have any derivative products that are created by separating them from their main contract. The Parent Bank’s derivative products are classified as “Derivative Financial Assets at Fair Value Through Profit or Loss” in accordance with the “TFRS 9 Financial Instruments” (“TFRS 9”) standard.

Liabilities and receivables arising from derivative transactions are recorded in the off-balance sheet accounts based on the contract amounts. Derivative transactions are valued at their fair value in the periods following their recording.

Derivative financial instruments are initially recognized at fair value. In the periods following their recording, derivative transactions are shown in the balance sheet in the accounts of the part of derivative financial assets at fair value through profit or loss or the part of derivative financial liabilities at fair value through profit or loss, depending on whether the fair value is positive or negative. Differences in fair value as a result of the valuation made are accounted under the profit/loss from derivative financial transactions and profit/loss from foreign exchange transactions items in the commercial profit/loss item in the profit or loss statement. The fair value of derivative instruments is calculated by taking into account their market values or by applying the cash flow model obtained by using market interest rates. Liabilities and receivables arising from derivative transactions are recorded in the off-balance sheet accounts based on the contract amounts.

The Group does not have any embedded derivative products as of 31 March 2026 (31 December 2025: None).

V. Explanations on interest income and expenses

Interest income and expenses are recognized by applying the effective interest method (the rate that equals the present value of the future cash flows of a financial asset or liability to its net present value).

Interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset, except for financial assets that were purchased or originated credit impaired and financial assets that were not purchased or originated credit impaired but subsequently become credit-impaired.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

V. Explanations on interest income and expenses (cont'd)

If a financial asset is credit impaired and classified as a non-performing receivable, the effective interest rate is applied to the amortized cost of the asset in subsequent reporting periods for such financial assets. In expected credit loss models, the effective interest rate is applied when calculating the loss given default, and the expected credit loss calculation also includes the interest amount. For this reason, a classification is made between the "Expected Credit Loss" account and the "Interest Received from Loans" account in the income statement for the relevant amount calculated.

VI. Explanations on fees and commission income and expenses

According to the nature of fees and commissions; fees and commission income/expenses collected/paid in relation to any forward transaction are recognized on an accrual basis, while other fees and commission income/expenses are recognized in accordance with TFRS 15 in the periods in which they are incurred. Loan fees and commission expenses paid to other institutions and organizations in relation to financial liabilities, which constitute transaction costs, are recognized as part of the interest expense of the related loan. Revenues from consultancy and project services provided through contracts or related to transactions such as asset purchases, partnership purchases or sales for a third party are recognized as income during the completion of the transactions, during the provision of the service or when they are collected, depending on their nature.

VII. Explanations on financial assets

The Group categorizes and recognizes its financial assets as "Financial Assets at Fair Value through Profit/Loss," "Financial Assets at Fair Value through Other Comprehensive Income" or "Financial Assets at Measured at Amortized Cost." Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets Measured at Fair Value through Profit or Loss," transaction costs are added to fair value or deducted from fair value.

The Group recognizes a financial asset into financial statements when it becomes a party to the contractual terms of a financial instrument. During the first recognition of a financial asset into the financial statements, business model determined by the Group management and the nature of contractual cash flows of the financial asset are taken into consideration.

1. Financial Assets Measured at Fair Value through Profit or Loss

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

VII. Explanations on financial assets (cont'd)

2. Financial Assets Measured at Fair Value through Other Comprehensive Income

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets measured at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets measured at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets measured at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement.

"Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the "Accumulated other comprehensive income or expense to be reclassified through profit or loss" under shareholders' equity. When the securities in question are collected or disposed of, the accumulated fair value differences reflected in equity are reflected in the income statement.

Equity securities, which are classified as financial assets measured at fair value through other comprehensive income, are carried at fair value.

2. Financial Assets Measured at Amortized Cost

If the financial asset is held within the scope of a business model that aims to collect contractual cash flows and the contractual terms of the financial asset led to cash flows that include solely payments of principal and interest arising from the principal balance on certain dates, the financial asset is classified as a financial asset measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at "Amortized cost" by using "Effective interest rate (internal rate of return) method." Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

Loans

Loans consist of financial assets created by providing money, goods or services to the debtor. Loans are initially recorded at cost and are measured at their amortized cost using the "effective interest rate method" after they are recorded.

VIII. Explanations on expected credit losses

The Parent Bank recognizes provisions for impairment in accordance with TFRS 9 requirements according to the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette dated 22 June 2016 numbered 29750.

When determining expected credit loss estimates, the Group takes into account the general structure of the financial asset portfolio, the financial structures of loan customers, non-financial data and the economic conjuncture, in line with its risk policies and prudence principle. Financial assets are classified into three categories depending on the increase in credit risks observed after their initial recognition in the financial statements.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

VIII. Explanations on expected credit losses (cont'd)

Stage 1:

Financial assets that do not have a significant increase in credit risk at the time of their initial recognition or after their initial recognition in the financial statements. Credit risk impairment provision for these assets is recognized as 12-month expected credit loss provision. Applies to all assets unless there is a significant deterioration in credit quality.

12-month expected credit loss values (within 12 months after the reporting date or sooner if a financial instrument has a life of less than 12 months) are part of the lifetime expected credit loss calculation.

Stage 2:

As of the reporting date of the financial asset, in the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is accounted on the basis of the financial asset's lifetime expected credit losses.

The main criteria taken into account in determining the weakening of the creditworthiness of the debtor of the financial asset and the significant increase in credit risk and its transfer to the 2nd stage are the number of delay days exceeding 30 days but not exceeding 90 days and a decrease in the Bank's internal risk rating scores.

Stage 3:

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized.

The Group considers the debt to be in default in the following two cases:

- Objective Definition of Default: It means the debt is overdue by more than 90 days. This assumption can be rebutted based on supportable information.
- Subjective Definition of Default: It means that the debt will not be paid. If it is considered that the borrower cannot fulfil the debts related to the loan, the debtor is considered as default regardless of whether there is a balance in delay or the number of days of delay.

In the calculation of expected credit loss, basic parameters expressed as probability of default, loss in case of default and default amount are used.

Probability of Default

Probability of default refers to the probability that the loan will default within a certain period of time. The macroeconomic model regarding the probability of default is modelled based on sector data since the Parent Bank does not have a historical data set.

Default Amount

Default amount refers to the expected gross receivable amount in case a loan goes into default.

Loss Given Default

Loss given default expresses the relationship between the economic net loss resulting from the default of a loan and the default amount in terms of a ratio. In other words, it expresses the ratio of the net loss incurred due to a loan in default to the balance of the loan at the time of default. Within the scope of TFRS 9, the Loss Given Default rate is calculated by taking into consideration the collateral values and the rates determined within the scope of Basel standards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

ACCOUNTING POLICIES (cont’d)

VIII. Explanations on expected credit losses (cont’d)

Future Expectations

Due to the small number of observations including internal default cases in the bank, a model that adopts the rating methodology and credit assessment tools developed based on publicly published global methodology documents is used instead of a model based on internal data.

Forward-looking macroeconomic information is included in the risk parameters used in TFRS 9 calculations. When including macroeconomic information, models and forecasts that reflect the relationships between model risk parameters and macroeconomic variables are taken into account. The main macroeconomic indicators that make up these forecast models are determined as Real Gross Domestic Product (GDP) growth and unemployment rate, and the macroeconomic model is reviewed at minimum annual periods.

Macroeconomic forecast models include more than one scenario, and the relevant scenarios are weighted and taken into account in expected credit loss calculations.

The Parent Bank reviews and updates the macroeconomic scenarios and weights used in the expected credit loss calculation on a minimum annual basis within the framework of the current financial asset portfolio, macroeconomic conjuncture and related future expectations. The Parent Bank has reviewed and updated the macroeconomic scenario data used in the expected credit loss calculation in March 2026.

Write-Off Policy

Within the scope of the amendment to the Provisions Regulation published by the BRSA in the Official Gazette dated 27 November 2019 and numbered 30961, the portion of the loans classified in the Fifth Group and for which lifetime expected credit loss provision has been set aside due to the default of the borrower, for which there is no reasonable expectation of recovery, can be written off in accordance with TFRS 9 as of the first reporting period following their classification in this group. Derecognition of loans is an accounting treatment and does not result in the relinquishment of the right to receive. As of the current period, the Group has not derecognized any loans within the scope of the amendment.

IX. Explanations on offsetting of financial instruments

Financial assets and liabilities are netted and shown in the financial statements at their net amounts when legally applicable or when the Group foresees that the netting of assets and liabilities will be carried out by the method. Otherwise, no netting is made regarding financial assets and liabilities.

X. Explanations on sales and repurchase agreements and lending of securities

Securities sold with repurchase commitments within the framework of repurchase agreements made with customers (“Repo”) are classified in the Group portfolio as “Financial Assets at Fair Value Through Profit or Loss”, “Financial Assets at Fair Value Through Other Comprehensive Income” or “Financial Assets Measured at Amortized Cost” portfolios according to the purpose of their holding and are subject to valuation according to the principles of the portfolio they belong to. Funds obtained in return for repurchase agreements are recognized in the “Funds provided from repurchase transactions” account in the liabilities and interest expense rediscount is calculated for the portion of the difference between the sale and repurchase prices determined by the relevant repurchase agreements that falls on the period.

Securities purchased with a resale commitment (“Reverse repo”) transactions are accounted for under the “Receivables from Money Markets” item in the balance sheet. Interest income rediscount is calculated for the portion of the difference between the purchase and resale prices determined by reverse repo agreements that falls on the period.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

XI. Explanations on non-current assets held for sale and discontinued operations and related liabilities

Assets that meet the criteria for classification as assets held for sale are measured at the lower of the carrying amount of assets and fair value less any costs to be incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, the sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition.

Highly saleable condition requires a plan by the management regarding the sale of the asset (or the disposal group) together with an active program for the determination of buyers as well as for the completion of the plan. Also, the asset (or the disposal group) should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

The Group does not have any fixed assets held for sale or related to discontinued operations as of 31 March 2026 and 31 December 2025.

A discontinued operation is a division of a bank that is classified as being disposed of or held for sale. Results from discontinued operations are presented separately in the income statement. The Parent Bank has no discontinued operations.

XII. Explanations on goodwill and other intangible assets

As of the balance sheet date, there is no goodwill in the attached financial statements of the Group (31 December 2025: None).

Other intangible assets include licenses and computer software purchased from outside.

The useful lives of other intangible assets are determined by the Parent Bank management and are amortized using depreciation rates determined according to the useful life. Intangible assets are amortized over 3-15 years.

XIII. Explanations on tangible assets

The initial records of tangible fixed assets were made based on their cost, which was calculated by adding the acquisition amount and other direct expenses necessary to make the asset usable. Tangible assets (except motor vehicles and real estate) are shown in the financial statements at the amounts remaining after deducting the accumulated depreciation and any impairment in value from their cost in the period following their recording, and motor vehicles and real estate are shown in the financial statements at the amounts remaining after deducting the accumulated depreciation from their fair value. Valuation differences resulting from valuations made by independent appraisal companies for real estate, based on current insurance values for motor vehicles, are accounted for in the tangible and intangible asset revaluation differences account under equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

ACCOUNTING POLICIES (cont’d)

XIII. Explanations on tangible assets (cont’d)

Tangible assets are depreciated using the straight-line depreciation method. The useful lives of tangible assets are determined by the Group management and they are depreciated using rates determined according to their useful lives. Tangible assets are amortized over 3-50 years using the straight-line depreciation method.

For leasehold improvements, depreciation is allocated using the straight-line method over the operational lease periods or the useful life of the special cost, whichever is shorter.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenditures for the repair and renewal of property and equipment are recognized as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset, or the quality of the product or to decrease the costs.

There are no pledges, mortgages or other measures on tangible fixed assets, or commitments made for their purchase, or any issue that limits the exercise of disposition rights over them.

XIV. Explanations on leasing transactions

When applying TFRS 16, the Group evaluates, at the beginning of a contract, whether the contract is a lease or includes a lease. If the contract transfers the right to control the use of an identified asset for a certain period of time in exchange for a consideration, the contract is a lease or includes a lease. The Group recognizes the right of use asset and lease liability in its financial statements on the date the lease actually begins.

The Group recognizes the right of use and the rent obligation on the financial statements at the effective date of the lease. The right of use is measured initially at cost value and subsequently measured at cost less accumulated depreciation and accumulated impairment losses and adjusted for the re-measurement of the lease obligation. TAS 36 Impairment of Assets is applied to determine whether the real estates that are entitled to use have been impaired and to recognize the impairment loss.

With the “TFRS 16 Leases” standard which became effective as of 1 January 2019, the difference between the operating lease and financial lease was removed and the lease transactions were started to be recognized under “Tangible Assets” as an asset (tenure) and under “Liabilities from Leasing” as a liability.

TFRS 16 introduces a single leasing accounting model for lessees. As a result, the Group, as a lessee, has acquired the lease rights representing the lease rights representing the right to use the underlying asset and the lease payments to the financial statements. Accounting for the lessor is similar to the previous accounting policies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

XIV. Explanations on leasing transactions (cont'd)

Right-of-use asset

The right-of-use asset is first recognized by cost method and includes:

- The initial measurement amount of the lease obligation,
- The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease.
- All initial direct costs incurred by the Group

When applying the cost method, the right-of-use:

- Accumulated depreciation and accumulated impairment losses are deducted and
- Measures the restatement of the lease obligation at the restated cost

The Group applies depreciation provisions in TAS 16 Property, Plant and Equipment while depreciating the right-of-use assets.

The lease obligations

At the effective date of the lease, the Group measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the interest rate implicit in the lease if this rate can be readily determined. If this rate is not readily determinable, the Bank uses the Group's alternative borrowing rate.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

After the effective date of the lease, the Bank measures the leasing liability as follows:

- Increase the book value to reflect the interest on the lease obligation
- Reduces the book value to reflect the lease payments made and
- The book value is measured to reflect reassessments and restructuring or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XV. Explanations on provisions and contingent assets and liabilities

Provisions and contingent liabilities recorded according to "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" ("TAS 37").

In accordance with the periodicity assumption, a provision for an existing commitment resulted from past events is booked in the period which the related event occurred. Provisions are calculated based on the best estimates of management on the expenses to incur as of the balance sheet date and, if material, such expenses are discounted to their present values. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

XV. Explanations on provisions and contingent assets and liabilities (cont'd)

For transactions that may affect the financial structure, provisions are recognized for those with clear data based on these data, and for those that are not, provisions are recognized on an estimated basis. As of the balance sheet date, there are no contingent events that are probable to occur as a result of past events and whose amount can be reliably measured.

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. Since recognizing the contingent assets in the financial statements may result in the accounting of an income, which will never be generated, the related assets are not included in the financial statements. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the consolidated financial statements. Developments related to the contingent assets are constantly evaluated to be reflected rightly in the consolidated financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the consolidated financial statements of the period in which the change occurs.

XVI. Explanations on liabilities regarding employee benefits

The Parent Bank recognizes liabilities related to severance pay and vacation rights in accordance with the provisions of "Accounting Standard for Employee Benefits" ("TAS 19") and classifies them under "Provision for Employee Benefits" in the balance sheet. The actuarial gains/losses are recognized under shareholders' equity as per the revised TAS 19. Provisions for severance payments are getting calculated by an independent actuary according to the rules and regulations.

According to the legislation, severance pay is paid in case of retirement or dismissal. Severance pay is calculated based on the length of service and the last salary or severance pay ceiling at the time of retirement or dismissal. There are no foundations, funds or similar organizations of which the Group employees are members.

XVII. Explanations on taxation

1. Current tax

With the publication of the Law No. 7394 in the Official Gazette dated 15 April 2022, the corporate tax rate for banks, consumer finance companies, factoring and financial leasing companies, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies has been determined as 25%.

With the Law No. 7456 published in the Official Gazette No. 32249 dated 15 July 2023, the corporate tax rate for banks was determined as 30%. This rate has entered into force starting from the declarations to be submitted as of 1 October 2023 and to be applied to the corporate income for the accounting periods starting from 1 January 2023. The Parent Bank has applied a corporate tax rate of 30% in its financial statements dated 31 March 2026.

The corporate tax rate is applied to the tax base to be found as a result of adding the expenses that are not accepted as a deduction in accordance with the tax laws to the commercial income of the corporations, deducting the exceptions (such as the participation earnings exception). If there is no dividend distribution, no further tax charges are made.

Withholding taxes is not applied to dividends distributed to companies' resident in Türkiye or companies who earn income in Türkiye through their resident representatives in Türkiye. Dividend payments made to persons and entities other than these are subject to withholding tax at the rate of 10%. Addition of profit to share capital is not considered as dividend distributed therefore no withholding taxes is applied.

D YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

XVII. Explanations on taxation (cont'd)

1. Current tax (cont'd)

Corporations calculate advance tax at the current rate on their quarterly financial profits and declare it until the 17th day of the second month following that period and pay it until the evening of the same day. Advance tax paid during the year is deducted from the corporate tax to be calculated on the corporate tax return to be submitted in the following year. If there is a remaining amount of provisional tax paid despite the offset, this amount can be refunded in cash or offset against other financial debts to the state.

50% of the profits arising from the sale of participation shares and real estates held for at least two years are exempt from tax, provided that 50% for real estates and 75% for participations are added to capital as stipulated in the Corporate Tax Law or kept in a private fund account in liabilities for 5 years. With the Law No. 7456 published in the Official Gazette dated 15 July 2023 and numbered 32249, the tax exemption for the profits arising from the sale of immovable properties has been terminated as of 15 July 2023 and the exemption rate for the profits arising from the sale of immovable properties in the assets of the corporations before this date has been determined as 25%. Under Turkish tax legislation, tax losses carried forward can be carried forward to offset against future taxable income for up to 5 years. However, tax losses cannot be offset against retained earnings.

In Türkiye, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within the last day of the fourth month following the close of the financial year to tax office. However, tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based and may issue re-assessments based on their findings.

Current tax effects related to transactions recognized directly in equity are also recognized in equity.

Within the framework of the reiterated article 298/A of the Tax Procedure Law, the conditions for inflation adjustment in the calculation of corporate tax have been fulfilled as of the end of the 2021 calendar year. However, with the regulation made with the Law No. 7352 dated 20 January 2022, the application of inflation adjustment in the calculation of corporate tax was postponed to 2023. Accordingly, TPL financial statements for the 2021 and 2022 accounting periods, including the provisional tax periods, will not be subject to inflation adjustment, and the 2023 accounting period will not be subject to inflation adjustment as of the provisional tax periods. Financial statements of TPL as of 31 December 2023 will be subject to inflation adjustment regardless of whether the inflation adjustment conditions have been met. In addition, pursuant to Law No. 7491 published in the Official Gazette dated 28 December 2023 and numbered 32413, it has been enacted that for the fiscal years 2024 and 2025, any profit or loss arising from inflation adjustments made by banks, payment and electronic money institutions, asset management companies, capital market institutions, insurance and reinsurance companies, and pension companies will not be taken into account in the determination of taxable income. In accordance with Provisional Article 37 added to Law No. 7571 dated 25 December 2025, the application of inflation accounting has been abolished for the fiscal years 2026 and 2027, including the 2025 fiscal year, regardless of whether the conditions for inflation adjustment are met. The calculations performed within the scope of inflation accounting under the Tax Procedure Law (TPL) for the year 2024 are not included in the accompanying financial statements and are monitored separately.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2026

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ACCOUNTING POLICIES (cont'd)

XVII. Explanations on taxation (cont'd)

1. Current tax (cont'd)

With the amendments introduced to Articles Provisional 32 and Repeated 298/Ç of the Tax Procedure Law, companies were granted the right to perform permanent and temporary revaluation. Accordingly, as of the beginning of the 2022 fiscal year, the Bank initially restated its tangible fixed assets recorded in its books to their current values pursuant to Provisional Article 32 of the Tax Procedure Law and subsequently revalued them in accordance with Repeated Article 298/Ç of the same Law. Due to the fulfillment of the conditions for inflation accounting, no revaluation was performed after 31 December 2023, and inflation accounting was applied. Since inflation accounting ceased to be applicable in the 2025 period, tangible fixed assets were revalued. As a result of these transactions, the depreciation amounts under the Tax Procedure Law subject to corporate tax have been calculated, for the 2025 year-end and the first interim tax period of 2026, based on the revalued amounts in accordance with Article 298/Ç of the TPL.

2. Deferred tax

Deferred tax assets or liabilities are recognized on temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes in accordance with the Turkish Accounting Standard for Income Taxes (TAS 12), except for goodwill, which is not subject to tax deductibility, and differences between initial recognition of assets and liabilities that are not subject to accounting and taxation.

Deferred tax liabilities and deferred tax assets are offset in the financial statements. The carrying amount of deferred tax assets is reviewed at each balance sheet date. The carrying amount of deferred tax assets is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

In addition, in accordance with the related circular of BRSA, deferred tax income is not subject to profit distribution and capital increase if there is an income balance as a result of netting off deferred tax assets and liabilities.

XVIII. Additional explanations on borrowings

Except for liabilities related to financial instruments at fair value through profit or loss, financial liabilities are initially recognized at acquisition cost including transaction costs and subsequently measured at amortized cost using the effective interest rate method. The Group does not issue convertible bonds.

In the case of assets that require significant time to be ready for use and sale (special assets), borrowing costs directly associated with their purchase, construction or production are included in the cost of the asset until the relevant asset is ready for use or sale. The amount of borrowing costs that can be capitalized for funds borrowed for the purpose of obtaining a special asset in a period is the amount determined by deducting the income obtained from temporary investments of these funds from the total borrowing costs incurred for these assets in the relevant period. All other borrowing costs may record as income on the period that they occur.

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

ACCOUNTING POLICIES (cont’d)

XIX. Explanations on share certificates issued

The Group has no shares issued as of 31 March 2026 and 31 December 2025.

XX. Explanations on acceptances

The Group has no acceptance transactions as of 31 March 2026 (31 December 2025: None).

XXI. Explanations on government incentives

As of 31 March 2026 and 31 December 2025, the Group does not have any government grants.

XXII. Explanations on segment reporting

The Parent Bank operates in Corporate and Commercial Banking, Treasury, Investment Banking and Digital Banking, and Corporate and Commercial Banking and Treasury have been the main areas of activity in 2026 in terms of financial statement impacts. The Group issues lease certificates based on management contracts under D Varlık Kiralama A.Ş., which is a subsidiary of the Parent Bank.

XXIII. Explanations on other matters

As of 31 March 2026, 68% of the asset size consists of financial assets measured at amortized cost, 5% consists of cash and cash equivalents and 17% consists of financial assets at fair value through other comprehensive income, 5% consists of financial assets at fair value through profit or loss, while equity represents 20% of the balance sheet size, loans received and borrowings from money markets 34%, funds 19%, and funds provided from issued securities 19%. (As of 31 December 2025, 68% of the asset size consists of financial assets measured at amortized cost, 7% consists of cash and cash equivalents and 15% consists of financial assets at fair value through other comprehensive income, 4% consists of financial assets at fair value through profit or loss, while equity represents 21% of the balance sheet size, loans received and borrowings from money markets 33%, funds 22%, and funds provided from issued securities 15%).

XXIV. Earnings per Share

Earnings per share stated in the income statement is calculated by dividing Group’s net profit by the number of shares issued in the relevant year. Companies in Türkiye can increase their capital by distributing “bonus shares” from accumulated profits and reassessment funds to current shareholders based on the number of shareholders’ shares. For the purpose of earnings per share calculations, such “bonus share” distributions are treated as issued shares. In the event that the number of issued shares increases due to the distribution of bonus shares after the balance sheet date but before the date of preparation of the financial statements, earnings per share is calculated by taking into consideration the total number of new shares.

XXV. Related Parties

In line with the purpose of these financial statements, shareholders, senior executives and members of the board of directors, their families and companies controlled by them or affiliated with them, associates and joint ventures are classified as related parties within the scope of the “Related Party Disclosures Standard” (“TAS 24”). Transactions made with related parties are presented in Section Five, note V.

II. Explanations on consolidated currency risk

The Group's exposure to foreign exchange risk is calculated on a monthly basis using the Standard Method. Currency risk is also taken into account in the calculation of the Capital Adequacy Standard Ratio as a sub-component of the overall market risk.

The Group's assets, liabilities and forward transactions in each currency are taken into consideration in the calculation of capital requirement for foreign currency risk and the absolute value of the higher of the net short and long positions calculated over their Turkish Lira equivalents is taken into account.

In the Parent Bank's Market Risk Management Procedure, in addition to the legal reporting made with the Standard Method, it is also stipulated that the value at risk is calculated within the scope of the Internal Model, back tests are performed and the results are reported to senior management and the Board of Directors.

As a component of Market Risk, currency risk is managed by the Bank in accordance with the limits set out in all applicable legal regulations and in a manner that ensures that it remains below the risk appetite and early warning levels approved by the Board of Directors.

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (cont'd)

III. Explanations on consolidated interest rate risk

Interest rate sensitivity of assets, liabilities and off-balance sheet items are measured by the Bank. Sensitivity analysis performed within this context is reported to the Asset-Liability Committee weekly.

In case of possible interest rate fluctuations, the value change that may occur in all interest rate sensitive products of the Group is measured through sensitivity analyses and their possible effects on net income and equity items are monitored. The Parent Bank's Market Risk Management Procedure stipulates that the Parent Bank calculates the daily value at risk by using the internal model and evaluates the risk that the Parent Bank may be exposed to under stress through stress testing and scenario analysis.

IV. Explanations on consolidated share position risk

None (31 December 2025: None).

V. Explanations on consolidated liquidity risk and liquidity coverage ratio

a) Information on risk capacity of the Parent Bank, Responsibilities and structure of liquidity risk management, the Bank’s internal liquidity risk reporting, communication between the Board of Directors and business lines on liquidity risk strategy, policy and application:

The Group manages liquidity risk in a way to ensure that it remains above the minimum limits set out in all regulations published by the BRSA on liquidity risk and the risk appetite approved by the Board of Directors. Regarding the management of liquidity risk, the Parent Bank ensures that measurement, monitoring, limitation, stress testing and scenario analysis studies are carried out in line with the structure and complexity of its activities and ensures that the results of these studies are regularly reported. Group's liquidity risk is strategically managed under the ownership of the Asset Liability Committee (ALCO) and under the supervision of the Board of Directors. Group's liquidity position is discussed at weekly ALCO meetings and reported to the Board of Directors through stress tests conducted by the Risk Management Department on a monthly basis. Through the liquidity risk appetite and early warning levels determined by the Parent Bank's Board of Directors, exceedances are monitored by the Risk Management Department on a weekly basis and necessary notifications are made to the relevant management levels.

In order to effectively manage liquidity risk, the Group aims to increase the diversity of funding on the basis of counterparties and instruments and continues to establish limit structures in various financial institutions and markets. Liquidity risk is managed by maintaining adequate cash and cash equivalent resources and accessible funding channels to fulfill existing and potential debt obligations; however, in the event of a possible liquidity squeeze, a “Emergency Liquidity Assistance” has been established in order to determine the necessary strategy, possible funding sources and roles and responsibilities within the Parent Bank, and to ensure that the Parent Bank fulfills its obligations and continues its operations without interruption.

Pursuant to the fifth paragraph of Article 4 of the Regulation on Calculation of Liquidity Coverage Ratio of Banks, it has been decided to apply the consolidated and unconsolidated total and foreign currency liquidity coverage ratios for development and investment banks as zero percent until otherwise determined by the BRSA, and in this framework, compliance with the legal ratio is not required.

In addition, in line with the Regulation on Calculation of Banks' Net Stable Funding Ratio, which entered into force upon publication in the Official Gazette No. 32202 dated 26 May 2023, the necessary calculations and reporting have started to be performed. Pursuant to the provisions of the relevant regulation, development and investment banks are exempted from meeting the minimum ratios.

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (cont'd)

V. Explanations on consolidated liquidity risk and liquidity coverage ratio (cont'd)

b) Information on the centralization degree of liquidity management and funding strategy and the functioning between the Parent Bank and the Parent Bank's subsidiaries:

There is a centralization approach between the Parent Bank's partnerships and its own liquidity.

c) Information on the Bank's funding strategy including the policies on funding type and variety of maturities:

The Parent Bank's funding sources are limited to non-deposit sources due to its status as an investment bank, and the Parent Bank has shaped its funding structure to ensure diversity in non-deposit funding sources in this framework. While expanding its investor base, the Parent Bank diversified its borrowing markets and instruments, established secured/unsecured borrowing and swap limits at domestic and foreign banks, contributed to funding diversity through the issuance of commercial papers, and continued to actively use its limits at Borsa Istanbul and Takasbank markets for borrowing purposes. The Parent Bank, which also has a borrowing limit at the Interbank Money Market of the Central Bank of the Republic of Türkiye, continues to use all funding channels effectively for liquidity management purposes. The Parent Bank's funding strategy is to diversify sustainable funding sources, funding counterparties and markets and to develop alternative instruments in order to realize a balanced asset liability management in terms of risks. With the establishment of D Varlık Kiralama A.Ş., it is aimed to expand the Parent Bank's funding resources with the funds obtained from lease certificate issuances.

d) Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Parent Bank's total liabilities:

Foreign currency liquidity management is provided by Parent Bank's treasury department for domestic funding sources and for foreign funding opportunities it is provided by the coordination of treasury department and financial institutions group in terms of matching and diversification of the sources' currencies, passive cost and maturities.

e) Information on liquidity risk mitigation techniques:

In order to meet the likely source composing to liquidity buffers for internal liquidity target and followed on a daily basis. For reducing the risk, the Parent Bank should diversify the sources and avoid the concentration on reimbursement dates.

f) Information on the use of stress tests:

The Parent Bank utilizes stress tests in the measurement of liquidity risk; in this direction, stress tests are carried out based on the Regulation on Measurement and Assessment of Liquidity Adequacy of Banks, which investment banks are subject to, and within the framework of various adverse scenarios, stress tests are carried out to monitor the compliance of liquidity adequacy with legal limits, risk appetite and early warning levels.

Stress tests for liquidity risk are conducted by the Risk Management Department and the results of the analysis are reported to the Board of Directors on a monthly basis.

g) General information on urgent and unexpected liquidity situation plans:

A "Emergency Liquidity Assistance" approved by the Board of Directors has been prepared in order to determine the necessary strategy, possible funding sources and roles and responsibilities within the Parent Bank in order to manage the risk in case of systemic or Bank-specific liquidity shortages, and to ensure that the Parent Bank fulfills its obligations and continues its operations without interruption. Within the scope of the plan, following the liquidity emergency assessment by the Assets and Liabilities Committee, the necessary actions are taken by the departments with roles and responsibilities in the process, and the monitoring and measurement activities related to the actions are carried out by the Risk Management Department.

h) Liquidity coverage ratio:

Consolidated and unconsolidated liquidity coverage ratio cannot be less than one hundred percent and consolidated and unconsolidated foreign currency liquidity coverage ratio cannot be less than eighty percent in accordance with the regulation on banks' liquidity coverage ratio calculation. With the decision of the BRSA, the consolidated and unconsolidated total and foreign currency liquidity coverage ratios for development and investment banks shall be applied as zero percent until the contrary is determined by the Board.

Liquidity coverage ratio is calculated as the ratio of high-quality liquid assets to net cash outflows in a one-month maturity window.

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (cont’d)

VII. Explanations on risk management

The notes under this caption are prepared as per the “Regulation on Calculation of Risk Management Disclosures” published in the Official Gazette no. 29511 dated 23 October 2015.

a. General Explanations on Risk Management and Risk Weighted Amounts

1. Parent Bank’s Risk Management Approach

In order to establish an effective risk management system that is appropriate for the scale of the Parent Bank, policies, procedures, limits and risk appetite structure have been established to enable the management of risks arising from operations in an integrated structure, and risk management activities have been established and clearly defined in accordance with internal and external legislation. The Parent Bank has established a system and infrastructure for the measurement and management of the risks to which it is exposed in line with its risk profile and operating environment. Duties, authorities and responsibilities within the scope of the risk management system are carried out by all units of the Parent Bank within the framework of the relevant policies, procedures and instructions and under the supervision of the Board of Directors in accordance with the legislation.

It is the responsibility of the Bank’s Board of Directors to establish a risk management system in this direction and to monitor its effectiveness. The Board of Directors carries out oversight responsibilities through the Audit Committee, Credit Committee and other related committees.

Policies and procedures have been established on the basis of risk types to ensure that the Parent Bank's activities are carried out in compliance with legal and internal limits and within the risk appetite levels established by the Board of Directors on a general and risk type basis. A triple line of defence approach consisting of line of business management, central risk management and independent review functions is applied in risk management.

Risk appetite is defined as the level of risk that the Parent Bank would like to carry out in terms of each type of risk that it considers important in order to realize the targets and strategies taking into account the risk capacity.

Risk appetite and early warning values, which are one of the most important parts of the Parent Bank's risk management system, have been established by the Risk Management Department and approved by the Board of Directors. The Risk Management Department is responsible for compliance with these indicators and the reporting to be made in order to take action in case of exceeding them.

The Asset - Liability Committee is responsible for the control and management of the Risk Appetite under the chairmanship of the General Manager, under the supervision of the Executive Board. The Risk Management Department is responsible for monitoring and reporting the indicators and limits set by the Risk Appetite policies.

Activities carried out by departments within the internal systems are used as a means to identify weaknesses in the risk management process, policies and procedures and to identify transactions that are contrary to such limits, policies and procedures. In this context, the Board of Inspectors, Internal Control Department, Compliance Department and Risk Management Department, which operate directly under the Board of Directors, continue their activities in coordination with the executive units.

Within the scope of risk management activities, monthly stress tests and scenario analysis are carried out in order to identify, measure and manage the risks, and the results are shared with the Board of Directors.

EXPLANATIONS AND NOTES ON CONSOLIDATED FINANCIAL STATEMENTS

I. EXPLANATIONS AND NOTES ON ASSETS

1. Information on cash and balances with the CBRT

1.1. Information on cash and balances with the CBRT

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash/Foreign currency	-	-	-	-
CBRT	422	108,498	63,151	113,002
Other	-	-	-	-
Total	422	108,498	63,151	113,002

1.2. Information on the account of Central Bank of Türkiye

	Current Period		Prior Period	
	TL	FC	TL	FC
Unrestricted Demand Deposit ⁽¹⁾	422	357	1,086	345
Unrestricted Time Deposit	-	-	62,065	-
Required Reserve	-	108,141	-	112,657
Total	422	108,498	63,151	113,002

(1) In accordance with the BRSA's letter dated 3 January 2008, the average TL reserve requirement balances are monitored under “CBRT Demand Free Account”.

1.3. Information on required reserves

Banks established in Türkiye or operating in Türkiye by means of opening branches are subject to the Republic of Türkiye Central Bank's Communiqué Regarding Required Provisions No. 2013/15. The amount to be calculated by deducting the deductible items specified in the Communiqué from the domestic liabilities of banks and the deposits/super credit funds accepted from Türkiye on behalf of their branches abroad constitute the liabilities subject to reserve requirements.

In accordance with the CBRT's “Communiqué on Reserve Requirements”, banks operating in Türkiye are required to maintain reserve requirements for Turkish currency deposits and other liabilities at rates ranging from 0% to 40% (31 December 2025: 0% to 40%) depending on their maturities as of the balance sheet date: 0% (31 December 2025: 0%) for Turkish currency deposits and liabilities, 0% to 30% (31 December 2025: 7% to 32%) for foreign currency deposits and other foreign currency liabilities, 25% for foreign currency detached funds (31 December 2025: 25%) depending on the maturity structure of the deposits.

EXPLANATIONS AND NOTES ON CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

I. EXPLANATIONS AND NOTES ON ASSETS (cont'd)

13. Information on deferred tax asset

The Parent Bank recognizes deferred tax on all taxable temporary differences arising between the carrying amount of an asset or liability and its tax base for financial reporting purposes in accordance with the Turkish Accounting Standard for Income Taxes ("TAS 12"). Deferred tax is calculated using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized. Deferred tax assets and liabilities are offset, and the resulting deferred tax assets and liabilities are reported as net in the financial statements.

	Current Period		Prior Period	
	Accumulated temporary differences	Deferred tax asset/ (liability)	Accumulated temporary differences	Deferred tax asset/ (liability)

9. Information on provisions

9.1. Foreign exchange losses on the foreign currency indexed loans and finance lease receivables

As of 31 March 2026 and 31 December 2025, the Group has no provision for foreign exchange losses on foreign currency indexed loans.

9.2. Employee benefits provision

	Current Period	Prior Period
Provision for bonuses	14,000	79,600
Provision for unused vacation	14,133	10,436
Provision for employment termination benefits	8,284	7,639
Balance at the end of the period	36,417	97,675

In accordance with the existing social legislation in Türkiye, the Parent Bank is required to make certain lump-sum payments to employees whose employment is terminated due to retirement or for reasons other than resignation or misconduct. Such payments are calculated on the basis of an agreed formula, are subject to certain upper limits and are recognized in the accompanying financial statements as accrued. The reserve has been calculated by estimating the present value of the future obligation of the Bank that may arise from the retirement of the employees.

The movement of the provision for employment termination benefits in the balance sheet is as follows:

	Current Period	Prior Period
Prior period end balance	7,639	4,759
Provision recognized in the year	645	3,246
Paid during the year	-	(361)
Actuarial gains/(losses) in employee benefits	-	(5)
Adjustment for prior years' severance indemnity	-	-
Balance at the end of the period	8,284	7,639

The movement of unused vacation provision in the balance sheet is as follows:

	Current Period	Prior Period
Prior period end balance	10,436	7,170
Provision recognized in the year	3,784	4,118
Paid during the year	(87)	(852)
Balance at the end of the period	14,133	10,436

Movements of bonus provision in the balance sheet are as follows:

	Current Period	Prior Period
Prior period end balance	79,600	64,139
Provision recognized in the year	14,000	79,600
Paid during the year	(79,600)	(58,438)
Reversed during the year	-	(5,701)
Balance at the end of the period	14,000	79,600

SECTION SEVEN

INTERIM ACTIVITY REPORT

I. SUMMARY FINANCIAL INFORMATION REGARDING THE OPERATING RESULTS FOR THE CURRENT PERIOD, THE COMMENTS OF THE CHAIRMAN OF THE BOARD OF DIRECTORS AND THE CEO

Message from the Chairman

Dear Shareholders,

The first quarter of 2026 was marked by the outbreak and escalation of the Iran war, which fundamentally reshaped the global economic outlook. The conflict disrupted global energy supplies by effectively closing the Strait of Hormuz, through which approximately 20% of global oil supply passes, leading to significant increases in oil prices and a dramatic rise in global inflation expectations. These adverse geopolitical developments, which affected nearly all advanced economies as well as emerging economies such as our own, prompted central banks to adjust their policy and interest rate stances in response to inflationary pressures arising from an unexpected supply shock. Following the peak of tensions in March, markets entered the second quarter on a more positive note, supported by news indicating the initiation of a ceasefire process between the United States and Iran. Accordingly, we are entering a new phase where the damage sustained will be repaired.

From the perspective of the Turkish economy, this challenging and exhausting period was navigated successfully, supported by the country’s strong foreign exchange reserves, the resilience of the banking sector, and sustained confidence in the economy. The Turkish banking sector once again demonstrated its robustness under stressed conditions.

Despite the impact of tightening financial conditions during the quarter, our Bank achieved its targets through prudent and balanced balance sheet management, reaching total assets of TL 10.2 billion and generating a net profit of TL 76.4 million for the period. Since its establishment, Doğan Yatırım Bankası has undertaken numerous pioneering and distinctive transactions with the aim of contributing to its clients and the national economy. In the first quarter of 2026, the Bank once again played a leading role by serving as the financial advisor for ETİ’s first overseas acquisition, conducted as part of its long-term globalization vision.

In 2026, we will continue to work toward our goals and contribute to our country’s economic development. I would like to thank all my colleagues for their contributions, hard work, and dedication, as well as our customers and stakeholders, for their trust and continued support.

Ahmet Vural Akışık

Chairman of the Board

INTERIM ACTIVITY REPORT

I. SUMMARY FINANCIAL INFORMATION REGARDING THE OPERATING RESULTS FOR THE CURRENT PERIOD, THE COMMENTS OF THE CHAIRMAN OF THE BOARD OF DIRECTORS AND THE CEO

Message from CEO

Dear Shareholders,

As Doğan Yatırım Bankası, we commenced our 2026 operating period with the objective of becoming a regional investment bank and with the mission of intermediating transactions that contribute to a strong and sustainable future for our country. Despite an environment dominated by the adverse effects of geopolitical developments that marked the first quarter of 2026 on both global and local markets, we maintained asset quality and continued our growth trajectory with sound and balanced balance sheet management.

Our Bank’s total assets increased from TL 9.6 billion at the end of 2025 to TL 10.2 billion by the end of the first quarter of 2026. Our cash loan portfolio, which constitutes 68% of total assets, reached TL 6.9 billion, while our total loan portfolio amounted to TL 8.6 billion. Our securities portfolio, whose share within total assets increased to 22%, rose to TL 2.2 billion. In the first quarter of 2026, our Bank generated a net profit of TL 76.4 million; as of March 2026, shareholders’ equity stood at TL 2.0 billion and the capital adequacy at 27.3%.

Since its establishment, our Bank has continued to execute distinctive transactions and added another successful transaction in the first quarter of 2026. Acting as the financial advisor in ETİ’s first international acquisition, undertaken within the scope of its long-term globalization vision, our Bank is delighted to have facilitated ETİ’s growth strategy through this transaction and to continue contributing to a strong and sustainable future for our country.

In line with our objective of contributing to the development of capital markets, we maintained our intermediation activities in private sector debt securities issuances, where we hold a leading position among investment banks, during the first three months of 2026, successfully intermediating a total of four capital markets debt instrument transactions. In addition to financing bills, and in line with the authorizations obtained in 2025, our Bank aims to execute lease certificate issuances for its clients in 2026 through its asset leasing company, Varlık Kiralama A.Ş. and will continue to expand its services in this area.

As Doğan Yatırım Bankası, we will continue to create value for our country and all our stakeholders in line with our objectives throughout the remainder of 2026.

I would like to thank all our stakeholders who have provided their support and contributions throughout these processes.

Hulusi Horozoğlu

General Manager and Member of the Board
